Establishment of local stores at District Head Quarters for the supply of Counter mercuries to the Local Fund Dispensaries

Comptr's No 360 & 16.9.03.
2-17
Senior Surgeon's No 1504 & 16.1.04
M.S.995

In his letter No 799 of the 7th March 1888 the Senior Surgeon requested that instructions might be issued to credit to the Medical Department all unexpended balances out of the Contingent allotments of the Local Fund dispensaries with a view of gradually forming a fund to be utilized for establishing local stores at District Head Quarters, from which Local Fund Dispensaries could be supplied with the requisite articles. This suggestion was approved of by Government and orders were accordingly issued in G.O. No 485-94 & 24.4.1888
15

2 The President of the Chitaldroog District Board is inserted in his Administration Report for 1901-02

Z

a Statement shewing the amounts credited to the Medical Department in accordance with the order alone referred to during the years 1900-01 and 1901-02. On this point a para (13) has inserted in the Draft Review calling for reports from the other Presidents and the Senior Surgeon. But the Secretary removed the para and ordered that a separate reference might be made, if necessary.

3. Accordingly the Comptroller has requested to submit a statement shewing the sums saved from the provisions made in the Municipal and District Funds Budgets on account of Dispensary Contingent Charges from 1st April 1888 to the end of June 1902 and credited to the Medical Department, and the Senior Surgeon to report the dates on which Stores were established at District Head Quarters, the system observed in supplying Country Medicines to the Dispensaries in each District and whether the rates at which the articles were supplied from

from these Stores compared favourably with those available in the local markets.

No 360/DK dt 16.9.1903. (Serial no 3 ydo)

4. As requested, the Comptroller furnished a statement showing the savings effected from 1st April 1891 to the end of June 1903. The amount credited to the Medical Department was Rs 79,249.

	Rs
Imprest Funds	17,704
Dr. A Funds	61,545

The Accountant has been requested to furnish the figures for the previous three years in as much detail as possible as he reported that detailed accounts for those years have been destroyed, and his report is awaited.

No 2443/DK 44-03 dt 26.12.03 (Serial no 8 ydo)

† In his letter No 914 dt the 30th January the Comptr reports that the amount credited to this head for the previous three years was Rs 8,864-15-7. (Serial no 13 ydo)

5. The Senior Surgeon reports that Imperial Stores were established at the several District Head Quarters at the close of the year 1888 that Country Medicines, Stationeries, Articles etc to the value of the savings for each District were purchased and supplied from the Medical Stores to the District Surgeon who in turn used to distribute them as required by the Hospl

No 1504/M.S.99 dt 16.1.1904 (Serial no 10 ydo)

Hospital Assistants in charge of Dispensaries, keeping the surplus quantity, if any, in their Stores, that the system observed in the distribution of these medicines, etc was to supply them as much as possible from the District Head Quarter Stores, so that the Hospital Assistants might purchase as little as possible of them at their own Head Quarters & that further the supply to these Dispensaries was regulated in proportion to the savings from the contingent grants of each Dispensary and that in cases where the savings were in excess of requirements the surplus was distributed in the District where the savings were small and the wants comparatively large, that the cost of the articles supplied from the Stores was cheaper than that charged for them in the local markets, and that

in

that in order to save time, trouble and expense, these Medical Stores were abandoned in 1895.96 and that these articles are now being supplied direct to each dispensary from the Medical Stores along with Europe medicines

6. It is submitted that the above reports were called for in order to know what effect was given to the order of the 7th March 1888. From the Senior Surgeon's report it is clear that the Stores that were established in 1888-89 were abandoned in 1895-96, or 7 years after.

Serial no. 10(9) this file sent up for reference

7. As the District Head Quarters Stores for which the need was started were found to be useless and abandoned, it is a question for consideration why the need should be continued & why

they the collections already made and credited to the Medical Deptt from 1895-96 should not be ~~and~~ refunded to the Municl and Distt Boards, which contributed to the fund, and also they instead of savings under contingencies, being credited to the Medical Budgets, the actual cost of articles supplied from the Medical Store, at Bangalore may not be charged to the Dispensaries and the savings to the sources which support the Dispensaries. Kindly decide requiring the Senior Surgeon whether the cost of charged to the Municl and Distt Boards for the supply of country medicines represents the difference between their value and the amount credited to the Medl Budgets under Contingencies of the 24th April 1888 or whether the latter is left out of account and they, pending the decision thereon altogether, is submitted for approval or other orders.

8- From the Memo in the linked file it would appear

that a Compounder was employed out of this fund, on the verbal orders of the Senior Surgeon, which was thus appropriated, though to a small extent, for a purpose for which it was not intended

15688
4.2.04

2/2/04

11. In reply to this office Docket No 7980 of the 12th July 1904, (DH4.03.) the Senior Surgeon reports in his letter No 1924 of the 11th March 1904 that the country medicines supplied to the L.B. Dispensaries from the Medical Stores are ~~supplied~~ purchased from the Special fund and that, under the present arrangement, all the dispensaries get an adequate supply of Country drugs etc in time and of the best quality and State, that he, therefore sees no reason why the Special fund should be discontinued, as its discontinuance will in no way effect a savings to Government

12. The objections to the Continuance of the present arrangement are the following:-

(i) The unspent balance goes entirely to the Medical Budget, the result being that entire provisions sanctioned in the Municipal and District Boards Budgets

budgets are debited to Municipal and District Fund Accounts which do not correctly represent the actual expenditure incurred thereon.

, The Municipal and District Boards which contribute towards this fund are not aware of the amount contributed and the cost of medicines supplied to each, nor is there anything to show that each Board is supplied with medicines to the extent of savings effected in its budget.

(iii) The Comptroller's Office where municipal and District Fund Accounts are audited is not also aware what amount each Board gets in the shape of Country medicines in return for the savings contributed by it every year nor is such an account maintained in the Medical Stores

(iv) There is nothing to show that institutions other than L.B. Dispensaries which contribute towards this fund are not also benefited at the expense of the Local Boards.

13. Submitted for orders as to

to whether the System may not be ordered to be discontinued, and the actual expenditure debited in the Annual Accounts, the Senior Surgeon being required to draw a lump sum advance, Annually, to cover the cost of Comforts, medicines and adjust the same by book adjustments on bills rendered by Presidents, this will remove the inequalities noticed above and each Board will be debited with the amount actually spent in each Dispensary.

^ as in the case of Stationery articles supplied from the Govt Stationery Dep

On the 1st July, 1903 there was Rs 4875 in favour of this Fund. This amount may be ordered to be absorbed ~~the requirement on act of Comfry medicines in the current off. year~~ supplied up to the end of the current official year, the excess cost, if any, being charged to the Several Boards during the year 1903-04.

Docket: Drafted HGW 6/4/04 H.V.K.

No. The above information has called for from the Comptroller, as ordered, in this office docket No. 3757 & 13.404, and the Sec. No 15'.
L'h 111.'03
Comptroller's reply given in his letter No 12,57 - 826.1.04
L'h
is given below.

I How is the fund formed and shown in the accounts and in what offices the accounts are maintained

The Savings & the Grants of L.'h Dis. pensaries for Contingent charges have hitherto been credited to a Separate Debit head called "Savings from Contingencies of Local Fund Dispensaries" by debit to District and Municipal Funds. These adjustments are made in the Cashbook of the Comptr's Office once a year, the adjustments exhibiting the receipts and charges with the opening and closing balances of the Fund.

II Who keeps the fund.

The fund is not kept in cash but is merged in the General Cash Balance of the Province.

III How is the money kept — who incurs the expenditure and how.

The Senior Surgeon incurs the expenditure against this fund and obtains money on bills.

IV What is the check and Control over it (expenditure)

The bills are audited by the Comptroller's Office with reference to the balances available under this fund

Submitted for orders

Any

Submitted with reference to the Divisional order, 4th April 1904

Statement (Flag A) put up shews that while the grant in the Medical Budget for Country Medicines has gradually risen from Rs 6150/- in 1890-91, to Rs 8100/- in 1902-03, the ~~amount~~ Expenditure incurred from savings effected out of the Contingent allotment & Local Fund Disbursements & credited to the Medical Budget during the same period has also increased from Rs 3421 × to Rs 11021

× Flag B

The only check exercised over the expenditure in the latter case is said to be the audit of the Bills by the Comptroller & not with reference to the requirements of the Districts but with reference to the balance available under this grant. This seems to be objectionable, as the

funds is ~~[illegible]~~ treated as being entirely at the disposal of the Senior Surgeon without any sort of check or control over the expenditure. Before disturbing the existing arrangements however, the Senior Surgeon may be asked to submit a detailed Distinctive Statement in the marginally noted form for 5 years shewing the expenditure incurred on account of Country Medicines both from the Medical Budget & from Savings of Local Fund Dispensaries credited to the Medical Budget, in order to regulate the expenditure from the latter Fund

II. **Subject--(Clause VIII of the Schedule.)**

(i) Whether the Special Fund formed of the Savings in the Contingent allotments for L.F. Dispensaries made in the Municipal and D.F. Budgets may be done away with, since the local Stores at District Head Quarters for supplying medicines to these Dispensaries, for the establishment of which the fund was formed, have been abolished; and

(ii) Whether the provision for contingencies of these Dispensaries in the Municipal and D.F. Budgets, should be reduced from Rs. 10 to 5 for each Dispensary, the provision in the State Medical Budget for supplying Country medicines to these Dispensaries being proportionately increased; or what amount the Local Boards should contribute on account of the medicines supplied to the Dispensaries from Govt: medical Stores.

Opinions of the Dewan and Councillors.

(a) The Special Fund may be abolished

and the money available distributed among the Local Boards which contributed towards the Fund.

(6) As the cost of country medicines is a proper charge upon the funds of the Local Boards, a Sum equivalent to the average of the past 5 years' expenditure should be contributed by them, provision therefor being accordingly made in their Budgets. The medical institutions may be grouped according to the Boards within whose jurisdiction they are situated, and the excess ~~figure~~ or deficiency in the Budget provision may respectively be refunded to, or paid by, the Boards concerned.

An order conveying detailed instructions on the above lines, may be issued.

(Z+Z²)

41. The creation of a special fund ordered in 1888, out of the savings from contingent grants of ₹10 each alloted out of Local Funds to the dispensaries and meeting the cost of country medicines supplied to them out of this special fund, has not answered the intended purpose satisfactorily. The Senior Surgeon abolished on his own responsibility in 1895, the stores maintained at the different Head Quarters to save time, trouble and expense, and country medicines are since then being supplied to the dispensaries direct from the Medical Stores. An enquiry having been made as to why the Local Boards should not be charged only as much as was necessary, the Senior Surgeon has now proposed the abolition of the special fund altogether and the reduction of the contingent grant from ₹10 to ₹5, the Medical Budget being correspondingly raised.

Serial no. 10 (of file put up for reference)

Paper under disposal

42 There seems to be no further necessity of maintaining the special fund since the local stores at the Head Quarters of Districts, for the establishment of which the fund was formed, have been abolished. The amount now available at credit of this fund, may be ordered to be distributed among the Local Boards which contributed to it.

As regards the cost of the country medicines in the future, the Boards may be asked to contribute a sum equal to the average of the past 5 years' expenditure, due provision being made therefor in their Budgets. The Medical Institutions will be grouped according to the Boards within whose jurisdiction they are situated, and the excess or deficiency in the Budget provision will be refunded to or paid by the Boards concerned. This arrangement, while securing uniformity of practice, will save much unnecessary delay and trouble.

4. A draft order on the subject is enclosed.

Genl: & Rev: Depts
Bangalore

Sir,

With reference to your official Memorandum No. 834 / L.7.32-02 Dt 17-8.03, I have the honor to submit as called for the following report in re the Utilization of the Saving Under Contingencies of L. F. Dispensaries the Province for the Supply of Country Medicines to the L. F. Dispensaries in each District

(1) Agreeably to Govt Proceedings No. 485-9 / L. 15. Dt 24th April 1888. Stores were established at the different Head Quarters of Districts about the end of the Year 1888 and Country Medicines Stationery Articles &c to the Value of the Savings available for each District were purchased

q purchased and Supplied from the Medical Stores to the District Surgeons who in Turn used to distribute them as required by the Hospital Assistants in charge of Dispensaries, Keeping the Surplus quantity if any in their Stores. Thus Year after Year the Stores at the District Head Quarters were replenished from the Medic Stores on a General Indent prepared & Submitted by the District Surgeon every Year after ascertaining from the Treasury Officer of the Distt. the amount of Savings available out of the Contingent Allowances to L.F. Dispensaries in the District.

(2) The System observed in the distribution of these Medicines &c was to Supply them as much as possible from the Distt. Head Quarters Stores. So that the Hospital Assistants in charge of Dispensaries may purchase as little as possible of these at their own Head Quarters. Further the Supply to these Dispensaries was regulated in proportion to the Savings from the Contingent Grants of each Dispensary and in cases where the Savings were in excess of requirements, the Surplus was distributed to the other Dispensaries

in

in the District where the Savings were small and the wants comparatively large.

As the prevailing in Bangalore were found to be more favorable than those in the other Districts, the articles were purchased here and Supplied. Whenever it was found that a certain article could be got cheaper elsewhere than in Bangalore it was got from there and supplied to all the districts.

(4). This System of Supplying Indigenous drugs & Hospital Necessaries to L.F. Dispensaries in the District lasted till the year 1895-96 when with a view to Save time, trouble & Expense the Stores at the different District Head Quarters were abolished and Country Medicines &c which were till then Supplied from the District Head Quarters Stores were Supplied from the Medical Stores direct to each Dispensary along with the Annual Supply of Europe Meavenes & Appliances, and practice is still continued.

I have the honor to be,

Sir,

Your most obedient Servant

Lt: Col: I. M. S.

Offg: Senior Surgeon & Asst: Commissioner with the Govt: of Mysore.

Bangalore

To

The Secretary to the Government of
H. H. the Maharaja of Mysore
Genl: & Rev | Depts
Bangalore

Sir,

With reference to your docket No. 2980 L.7.44-03 Dt 12.2.04, I have the honor to State that the Cost of Country Medicines Supplied from the Medical Stores does not represent the difference between their value and the amount credited to the Medical Budget as per Govt: Proceedings No. 485-94/15 Dt 24.4.1888 but only the latter.

2) This amount is ascertained yearly from the Comptroller and Expenses in the purchase of Country Medicines, stationery articles &c according to the requirements of the Dispensaries and the details submitted monthly to the Comptroller on Contingent Bills for adjustment

This special Fund is thus utilized in the manner intended, with this difference, that instead of the District Head Quarters Supplying the requisite articles to the Local Fund Dispensaries

Dispensaries, the Medical Stores does it as already Stated in this office Letter No. 1504 M.S.995 Dt 16.1.04.

If the present System of supplying Country Medicines &c from the Medical Stores is discontinued the Hospital Assistants in Charge of L.F. Dispensaries will have to purchase them Locality or get them from such places where they are available. This will involve a great deal of extra trouble, inconvenience & Expense and to obviate this my predecessor Col J. J. McGann in his letter No. 299 Dt 7th March 1888 proposed that all unexpended balances out of contingent allotments of L. F. Dispensaries should be annually placed at the disposal of the Medical Department for establishing Local Stores at District Head Quarters, and Govt were accordingly pleased to Sanction this in their Proceedings No. 485-94/15 Dt 24.4.1888.

From that date Country Medicines &c were purchased in Bangalore & Supplied to the several District Head Quarters for

distribution to the L. F. Dispensaries in the Districts

This practice was continued till the year 1895-96 when for reasons stated in my letter No. 1504 M.S.995 of 16.1.04 Country Medicines &c were sent along with the annual supply of Europe medicines direct to each Dispensary instead of through the District Head Quarters.

This System has been found to work satisfactorily inasmuch as all the dispensaries get an adequate supply of Country drugs &c in time and of the best quality and therefore see no reason why it should be discontinued as its discontinuance will in no way effect a savings to Government.

I have the honor to be
Sir,
Your most obedient servant,

SIR,

With reference to letter No. 3350/L.F.44-03 dated 13th. Instant requesting information in regarding the formation of the Fund "Contribution from Local and Municipal Funds for Disputed Charges", I have the honor to state as follows.

(1). The savings of the grants to Local Fund Disputed for contingent charges have hitherto been credited to a suspense debit head called "Savings from Contingencies of Local Fund Disputed" by debit to District and Municipal Funds. These adjustments have not been taken in the books of this office, which exhibit the receipts and charges with the opening and closing balances of the Fund.

(2). The fund is kept in cash but is invested in the General Cash Balance of the Province.

(3). The Secretary to Government sanctions the disbursements from this fund on bills.

(4). The bills are submitted by this office with reference to the balance of the credit in the Fund.

SENIOR SURGEON & SANRY: COMMR MYSORE GOVT. * OFFICE OF 20 JUL. 1904 BANGALORE

To

K. K Venkatavaradaiengar Esqr.
Secretary to the Government of
His Highness the Maharajah of Mysore
General & Revenue Departments,
Bangalore

Sir,

With reference to your docket No 477 L.F. 44-1 flag (A) (in the file put up for reply) dated 7th June 1904 calling for a statement of Expenditure for each District for 5 years ending 1902-1903 incurred on account of Country Medicines both from the Medical Stores and from Savings from Local Fund Dispensaries, I have the honor to forward herewith a statement shewing the expenditure incurred for the Provence and to state that it is not possible to furnish the information required for each District separately

for the following reasons:

In the Medical Budget, under Country Medicines, no allotment is specified for each District but a lumpsum is provided for the whole Province under the headings "Country Medicines and Carriage of Medicines."

All charges incurred in Connection therewith were being drawn on Abstract Contingent bills under the following heads:—

(1) Country Medicines
(2) Carriage of Medicines
(3) Contingencies and latterly under the first two heads only as per Comptroller's docket No. 2342 F.A & C.R.I 395-96. dated 5th October 1902. The details were furnished monthly to the Comptroller, care being taken not to exceed the total grant.

The allotment under Local Fund Savings is being similarly utilized and accounted for under the following heads:—

(1) Country Medicines
(2) Stationery articles
(3) Contingencies

Thus Country Medicines were purchased from both the allotments and supplied to all Hospitals and Dispensaries in the State according to their requirements irrespective of any definite proportion from each allotment out of which the Cost had to be met.

Besides a large number of Tinctures and ointments were prepared at the Medical Stores every year out of Country Medicines purchased from both the Sources and supplied to Hospitals and Dispensaries.

Such having been the procedure it is not feasible to separate the charges incurred under each head for each District for the five years under reference and to find out how much of the expenditure met from the Medical Budget and how much from savings.

I would therefore suggest the advisability of doing away with the Local Fund savings altogether and raising the allotments for Country medicines in the

Medical Budget by that amount, by reducing the Contingent allotment for each Dispensary by one half, so that the requirements of all the Hospitals and Dispensaries in the State may be met.

I have the honor to be,

Sir,

Your most obedient Servant,

Read:-

Paper under disposal

Correspondence ending with letter No.G.39 dated the 21st July 1904 from the Senior Surgeon and Sanitary Commissioner with the Govt of H.H.the Maharaja, submitting a statement showing the expenditure incurred ~~for~~ in the purchase of countr medicines out of the savings from ~~the Dispensaries~~ the amounts provided in the District Fund and Municipal Budgets on account of contingencies for the Local Fund Dispensaries, and suggesting the advisability of doing away with the present system of providing indefinite sums in the Local ~~Fund savings altogether and~~ boards budgets ~~raising the allotment for country medicines in the Medical Budget by that amount, by reducing the contingent allotment for each Dispensary by one half.~~

Subject-

Directs that the special fund formed of the savings in the Contingent allotments made in the Municipal and D.F. budgets for L.F. dispensaries be abolished, and the Local Boards being required to contribute towards the cost of Country medicines supplied to their Dispensaries by the Medical Department

Order thereon No.(4021-30)-
3.44-33 9/16/11/04

Government observe that at present a sum of Rs.8,211 on an average is being saved and credited annually to the medical budget as a Special fund from the provision made for contingencies in the Municipal and the District Fund Budgets for the purchase and supply of country medicines. The Senior Surgeon proposes to do away with the present system and to reduce

H.S. Copies & 1-to the S. Surgeon & Compt

reduce the provision in the Municipal and the District Fund Budgets by one half from 10% to 5% with effect from 1st January, the medical Budget being raised to the extent actually required to meet the cost of the country medicines hitherto supplied from the savings under contingencies. The proposed abolition of the special fund is sanctioned and the money available at the credit of the fund on the 30th June 1904 should be distributed among the Municipal and the District Boards, which contributed towards the fund, in the same proportion in which savings were effected and credited to the fund.

2. As the cost of country medicines is a proper charge upon the finances of the Local Boards, a sum equivalent to the average of the past 5 years' expenditure should be contributed by them, provision therefor being made in their respective Budgets. The medi-cal institutions may be grouped according to the Boards, within whose jurisdiction they are situated, and the excess ~~over,~~ or deficiency, in the Budget provision may respectively be ~~paid by or~~ refunded to, or levied by, the Boards concerned.

3. The Comptroller is accordingly requested to submit a statement showing the amount of the charges actually incurred on account of contingent ex-

penditure

expenditure as distinguished from country medicines and also the amount of savings effected and credited to the Special Funds to meet the cost of country medicines during the past 5 years in each District including the Municipalities which should of course be separately shown, to enable Government to revise the Budget allotments for 1904-05 already sanctioned.
